Shooting Accessories for the Serious Varmint/Target Shooter

Dear Serious Varmint & Target Shooters:

**New
5th
Edition!!**

Just Revised! *“The Sensational Seventeens”* reloading manual by Todd A. Kindler, Author of *“The Terrific Twenties”*. This seventeen caliber reloading manual features the finest 17 calibers from the 17 Squirrel, 17 Ackley Hornet, 17 Mach IV, 17 Remington, 17 Tactical and 17 PPC!

If you’re getting into the sensational seventeens or been shooting them for years, this manual could help the beginner or even the experienced reloader. It’s the finest all inclusive 17 manual on the planet! Order yours today, \$33.00 ppd.

**NEW
3rd
Edition!!**

A NEWLY REVISED! 20 caliber reloading manual, *The Terrific Twenties*, by Todd A. Kindler, author of The Sensational Seventeens. Todd is proud to introduce his new manual covering the most popular 20 caliber cartridges available today. This is the first and only 20 caliber manual ever published. If you love varmint shooting with a fast, low recoiling cartridge you will love the terrific twenties. Order yours today! \$33.00 ppd. **Now including the 204 Ruger and outstanding articles on the 20 VarTarg, 20 PPC, 20 BR, 20 Ackley Hornet, 20 Ackley Bee, Tactical Twenty, and 20-250!**

The Woodchuck Den, Inc. is proud to introduce the **Tactical Twenty** cartridge. The **“Tact 20”** is based on a 223 Remington necked down to 20 caliber with a 30 degree shoulder. We are more than thrilled with the results of this new barn burner as it moves the new Hornady 20 caliber 32 gr. V-Max bullet at 4200 to 4300 f.p.s! It has proven extremely flat shooting and deadly on woodchucks and coyotes. Our good friend and custom tool and rifle builder, Greg Tannel at Gre-Tan Rifles, feels its the finest coyote cartridge ever developed! The **“Tact 20”** has very little recoil so you can see your shots and the Berger 40 grain boat-tail bullet does not exit a large coyote or woodchuck. The **“Tact 20”** has 500 yard potential out of a rifle with a 24 inch barrel. We have the excellent Redding and Wilson dies in stock for it. Are you ready? Are you ready for a “screamin’ demon” varmint cartridge then call today!

Available Now - the New 17 Tactical and New 30 Grain Gold 17 Cal. (.090) Boat-tail Bullets with a BC of .270! This hot combination should reach long ranges on varmints! Also our new 25 Grain Gold with a .090 long boat-tail with a BC of .225 and will work with a 1/10 or 1/9 twist.

“The Terrific Twenties”

by Todd A. Kindler

In the past 12 years, Todd Kindler has worked very hard to bring the 20 calibers “out of the closet” as only a few shooters across the country were using them. Once Todd found out how effective, accurate, and fun “the terrific twenties” were on varmints, he went to work with the barrel and bullet manufacturers to produce precision quality products to support the 20 calibers.

Todd also designed over a half dozen superb 20 caliber cartridges from the **20 Ackley Hornet**, **20 VarTarg**, to the sizzling **Tactical Twenty!**

This manual will help you get started in the fascinating world of the 20 calibers. If you’re looking for a brand new varmint caliber that is safe (few if any ricochets) relatively quiet and very low recoil, then give the 20 calibers a try. However the **Tactical Twenty**, **20 PPC**, **20 Terminator**, **20 BR** and **20-250** are effective to 600 yards! Includes superb load data for the **204 Ruger**. Jump on board and order your new 3rd edition terrific twenty caliber reloading manual today!
