Shooting Accessories for the Serious Varmint/Target Shooter

Dear Serious Varmint & Target Shooters:

Todd A. Kindler started The Woodchuck Den 20 years ago, which has been the leader in small calibers ever since. In the beginning, Todd promoted and began stocking many of the difficult to find 17 caliber products. The Woodchuck Den soon became the "go to" place for 17 caliber products. Then Todd turned his attention to the 20 calibers, which were at that time almost extinct. After much early testing and 20-caliber cartridge development, Todd decided to re-introduce the "terrific twenties" to the shooting world. Todd has worked with many leaders in the industry to make 20-caliber barrels, bullets, and specialized forming and loading dies. It's been a long and tough journey, but Todd has now successfully put the 20 calibers in the forefront of the varmint/target shooting world! The Woodchuck Den stocks quality cleaning and reloading supplies and tools for the 17 and 20 calibers. We also offer custom-formed cases for many of the 17 and 20 caliber wildcats, as well. One of the best ways to get started in the fantastic small calibers is to purchase the two reloading manuals below. As you will see, we simply have a passion for the 17 & 20 calibers!

We provide over three decades of small caliber knowledge and extreme accuracy experience to our customers. We are focused on extreme accuracy and helping each customer achieve his precision goals.

**New

New Woodchuck Den Case & Neck Lube \$8.95 2oz. - a must!

Accuracy is achievable.....how well do you want to shoot!

Over the past twenty years I have helped many customers all over the world setting up their small caliber projects. I try to tell each one that many of the small calibers have long range capability if you do your part. It's all about "connecting all the dots" starting with a precision rifle, a quality scope and precision reloads by using the best reloading dies available! It takes concentric ammo to shoot long range and if you connect all those dots I think you will very happy with your long range success! Give us a call today and let us help you reach your accuracy goals.

“The Sensational Seventeens” by Todd A. Kindler

*New 6th
Edition*

*Signed &
Numbered*

Dear Serious Varmint/Target Shooters:

We are proud to offer our recently updated 17 caliber reloading manual entitled “THE SENSATIONAL SEVENTEENS” by Todd A. Kindler. It has over 20 years of work developing safe loading data and information. The manual is spiral bound with a superb color cover front and back.

Our goal is to make it THE seventeen reloading manual. Obviously, we can not test every cartridge and bullet combination out there, several friends have helped us with a few of the their 17 wildcats. We encourage your input and information if you would like to share it with all of us. We will carefully evaluate any information and related equipment to insure the safety and integrity of the manual.

The cost of the recently updated edition is **\$35.00 postage paid** in the Continental US; and all International orders will be charged actual shipping costs. Ohio residents add 6.75% sales tax. Contact The Woodchuck Den, Inc. at 11220 Hilltop Road SW, Baltic, Ohio 43804 or (330) 897-0614 (Monday-Friday 9:00 - 5:00) to obtain your manual. Visa/Mastercard and money orders accepted.

Do you know the ballistic coefficient of a Woodchuck Den 27 or 30 gr. Gold? The manual has a ballistic coefficient chart for almost all of the 17 bullets that are available today!

Do you know which barrel twist is best for a 17 callibar bullet? The manual has a barrel twist rate chart that may point you in the right direction!

What powders and loads are the best for the 17 Hornady Hornet, 17 Ackley Hornet, 17 Mach IV, 17 Fireball or the 17 Tactical? The manual has a great deal of information on all of these!!!

The manual also includes two features articles, load information for the 17 CCM, 17 Squirrel, 17 Hornady Hornet, 17 Ackley Hornet, 17 Ackley Bee, 17 HeBee, 17 Mach IV, 17 Remington Fireball, 17 Remington, 17 VLR, 17 Tactical, 17 PPC, and more!

The Sensational Seventeens are the varmint caliber of the future! Don't you think that it is time to join in on the fun! Less powder - less noise - less recoil - FUNTASTIC!!!!!!!!!!!!!!

Revised 4th Edition!

“The Terrific Twenties”

by Todd A. Kindler

In the past 20 years, Todd Kindler has worked very hard to bring the 20 calibers “out of the closet” as only a few shooters across the country were using them. Once Todd found out how effective, accurate, and fun “the terrific twenties” were on varmints, he went to work with the barrel and bullet manufacturers to produce precision quality products to support the 20 calibers.

Todd also designed over a half dozen superb 20 caliber cartridges from the **20 Ackley Hornet**, **20 VarTarg**, **20 VarTarg Turbo**, to the sizzling **Tactical Twenty**!

This manual will help you get started in the fascinating world of the 20 calibers. If you’re looking for a brand new varmint caliber that is safe (few if any ricochets) relatively quiet and very low recoil, then give the 20 calibers a try. However the **Tactical Twenty**, **20 PPC**, **20 Terminator**, **20 BR** and **20-250** are effective to 600 yards! Includes superb load data for the **204 Ruger** and the brand new **20 Titan** and **20X47 Lapua**. Jump on board and order your new 4th edition terrific twenty caliber reloading manual today!

The first and only 20 Caliber Reloading Manual on the planet!
